Amadeus Sales & Catering
Email to RFP

Your AI (Artificial Intelligence) ally to converting RFP email inquiries into revenue opportunities.

Boost efficiency, response times and drive conversion

Boost efficiency and drive conversions with **Email to RFP**, an add-on to MeetingBroker®. Forward email inquiries to a dedicated inbox where Generative AI analyzes content and attachments, creating structured RFPs within MeetingBroker and inquiries within Delphi. Focus on building relationships and closing deals faster.

Leverage AI powered automation to:

Save time
- Eliminate manual entry with automated data extraction for contact, event, & guest room details, catering requirements, and more

Respond faster
- Bid on more profitable deals faster
- Increase chances of winning more business

Drive conversion
- Avoid missed opportunities by capturing email outreach across channels
- Every inquiry is logged to have true demand & opportunity visibility, even those that are turned down
